The perfect plan

Where do we begin? With your needs, wishes, ideas—and a solid understanding of organizational logic, too. Using the ORG Home garage zone system, we work together to map out a plan that will simplify your day and enhance your home to fit your lifestyle.

1. TRANSITION

A natural place to set bags, hang jackets, or sit down to put on or take off shoes on your way in or out the door.

2. NEED IT NOW

Quick, easy access to frequently used items such as dog food, soft drinks, canned goods, recyclables or any kind of household overflow.

3. LONG, TALL, THIN STORAGE

A convenient home for seasonal supplies and yard tools like shovels and clippers, just steps away from where you use them.

4. LARGE ITEM STORAGE

Higher elevation storage keeps large, seldom-used items such as coolers, camping gear and holiday décor out of the way.

5. FREQUENTLY USED ITEMS

A grab-and-go zone for easy access to often-used items like brooms, rakes, bird food and active gear.

6. WORK SPACE

Your place to escape and focus on activities you love, complete with creature comforts to enhance the experience.

Transform your space with **ORG Home signature garage** solutions featuring robust construction and dimensions up to 48" wide. The wall-mounted cabinets make cleaning a breeze and protect against moisture and nesting of pests.

It's all possible

- Almost endless options let you transform your garage into a space that accommodates your exact needs.
- Doors conceal clutter to keep the room feeling clean and calm.
- Extruded aluminum handles protect the edges and coordinate with other hardware.
- Butcher block worksurface offers extra durability for projects and hobbies.
- Sleek styling provides a sophisticated appearance.
- Heavy-duty construction stands up to tough garage conditions.

Built-in flexibility

Heavy-duty hooks and bins go anywhere and rearrange as needed.

Shown in Driftwood with Arctic White interior.

Personalized space

Carve out a hobby or garden station with cabinets and drawers that keep all your supplies neatly contained.

Neat ideas

A reach-in recycling center and sports lockers with pull-out baskets keep everyday items close at hand but hidden from view.

Practical approach

Built-in options like ventilated cabinets, garden tool racks and a utility sink are made to accommodate hard work.

Shown in Chateau with Arctic White interior.

Let the fun begin

- Sports center, party central, storage and yes, room for the car.
- High-quality finish and accents create a stylish space you're proud to share.
- Doors conceal all the clutter when it's time to play.
- Glass and beverage storage saves trips back and forth into the house.
- Integrated audio makes the room entertainment-ready.
- A boot bench eases transitions in and out of the door.

Accommodate your interests

The Silver Track's hooks and racks keep bikes, helmets and other sports equipment within easy reach.

Hold everything

Take your pick of short, tall or deep cabinets, all mounted securely up and off the floor.

Organize your gear

Jackets, coats and fishing vests hang neatly in the garage, alongside tents and tarps.

Ready to serve

Hooks and bins on the Silver Track hold paper towels, ice tongs, etc. Pull-out recycling bins conceal the empties.

Double duty

By day, it's a tool rack. By night, unveil a secret display shelf and media storage to surprise your guests.

Open wide

Hinge design lets you access gear easily, then close the doors to present a clean, clutter-free face to the world.

Shown in Copper Blaze with Arctic White interior.

Polish your image

- Color-rich finishes add high style to your garage.
- Hanging cabinets protect from damp floors and allow easy cleaning underneath.
- Heavy-duty, 1" thick shelves handle loads with ease.
- Euro-style hinges allow doors to open wide.
- Wall-to-wall storage maximizes every inch of space.
- Cabinets are organized into zones for everyday and occasional use.

Neatness counts

ORGwall keeps supplies close at hand, and a built-in sink lets you wash up before entering the house.

A comfortable fit

Extra-deep cabinets accommodate oversized items like golf clubs or coolers.

Details matter

Dovetailed drawers extend fully on quality slides and 1" thick shelves adjust for your changing needs.

Trophy room

Add built-in display cases to show off mementos, awards, and keepsakes.

Interest-driven

Organize a hub for the activities you love, like this scooter pit stop.

Enhance your lifestyle

- Customization creates the ultimate high-performance garage.
- High-end finishes maintain consistent aesthetics indoors and out.
- Cabinets and drawers organize equipment and keep clutter out of sight.
- Adjustable, 1" thick shelves provide exceptional durability.
- Tall cabinets with hanging rods store athletic and outdoor apparel.

Shown in Platinum with Arctic White interior.

Unified front

Tools and equipment of all sizes and shapes are tucked away behind doors to create a tidy look.

Efficiency experts

- A boot bench creates a handy landing pad.
- ORGwall makes grab-and-go items easy to find.
- Wire baskets on full-extension glides keep sports gear contained.
- Tall cabinets conceal yard tools behind closed doors.
- Heavy-duty shelves hold big, bulky items with ease.

Shown in Heritage Maple with Arctic White interior.

A tall order

Take full advantage of vertical space with cabinets scaled to match your garage.

Think big

Deep cabinets with adjustable, 1" thick shelves accommodate oversize totes.

Good clean living

- Elevated cabinets simplify floor cleaning.
- Durable surfaces are easy to clean.
- Gorgeous finishes and quality hardware extend your sense of style.
- Built-in work surface provides space for hobbies or fix-it projects.
- ORGwall puts commonly used items within easy reach.
